

Simple Effective Handling Solutions

Wilmat....

...Best of British design, manufacture and service

When it comes to mobile materials handling and lifting equipment, Wilmat has grown to become a market leader, offering an unrivalled range of bespoke services for customers of all sizes across a wide range of sectors.

Whatever your handling needs, from a single truck to a complete handling solution, we provide innovative products built to the highest standards at our production facility in Birmingham.

In support of Wilmat's 'standard' product range, which includes stacker trucks, counterbalance trucks and mobile cranes - our industry-leading design team is able to develop bespoke products to meet the needs of niche markets and individual customers.

Everything we build is manufactured to 'Best of British' standards by a passionate workforce proud of its heritage and reputation for excellence, a reputation enhanced by the achievement of ISO9001.

Furthermore, everything we produce is backed up by first class aftersales support with nationwide coverage ensuring all our products deliver a lifetime of reliable and effective service.

Whatever we do, we aim to make life as easy as possible for clients, from providing full project management to offering flexible finance arrangements. We even supply used equipment and a hire service to enable customers to cope with peak periods or unexpected workloads.

Since 1963 Wilmat has proved time and time again that we have the skills, know-how and passion to deliver tailor-made products and solutions. Whatever your requirements, call Wilmat now on 0121 454 7514 ex1 or email sales@wilmat-handling.co.uk for help in finding the best materials handling solution.
