

## Non-Extending Fork Mounted Jibs

- When height is not at a premium, but maximum lift capacity is critical, the Fork Mounted Jib allows the movement of long and awkward loads from inaccessible locations with the potential of 4 different lifting centres.
- Specifically designed to convert a forklift truck into a mobile crane. Allowing increased flexibility to reach and transport long and awkward loads from otherwise inaccessible locations
- Multi hook positioning from 1000-1750mm load centres
- Centre of Gravity 670mm
- Maximum fork section 150 x 50mm at 435mm centres
- Zinc plated fork heels pins for safe forklift attachment
- Supplied complete with single safety swivel hook and bow shackle

Capacities at centres shown				Weight	Ref
1000mm	1250mm	1500mm	1750mm		
1000kg	800kg	600kg	300kg	141kg	<b>1110w</b>
1500kg	1000kg	800kg	400kg	146kg	<b>1111w</b>
