

Extending Fork Mounted Jibs

- The extending jib allows the movement of long and awkward loads from inaccessible locations, but with up to 9 different lifting positions and with the added benefit of two hooks and shackles so as to 'cradle' your load.
- Specifically designed to convert a forklift truck into a mobile crane. Allowing increased flexibility to reach and transport long and awkward loads from otherwise inaccessible locations
- Multi hook positioning from 1000-3000mm load centres
- Centre of Gravity 670-1010mm
- Maximum fork section 150 x 50mm at 435mm centres
- Zinc plated fork heels pins for safe forklift attachment
- Painted bright orange for safety

Capacities at centres shown									Weight	Type/ Ref
1000mm	1250mm	1500mm	1750mm	2000mm	2250mm	2500mm	2750mm	3000mm
