

PVC Strip Curtains

To order:

Measure Width x Height of opening (allow an extra 150mm each side on fixed faced installations) to give price/m²
 Check PVC specification & overlap in table.
 Specify fixed faced or lintel fixed curtain when order.
 Please provide measurements of opening where curtains will be placed.

- PVC strip curtains help to keep out draughts and maintain a constant working temperature
- Curtains can be hung upto 3.5m depth
- East to install, they can be tailor made to fit any opening (please contact our sales dept who will be glad to advise you)
- Strip curtains are lightweight, easy to maintain, tough and flame retardant
- High visibility provides safe access to pedestrians and forklifts
- All fixings are supplied with curtains
- Assembly instructions are included
