

Light Duty Cantilever Racking

- Keep long lengths of timber, pipe, mouldings or strip metal tidy and easy to access with this great value cantilever racking system.
- You can store up to 240kg on each of the adjustable arms with a maximum total capacity of 960kg for each side of the uprights.
- Made from sturdy powder coated steel, Light Duty Cantilever is offered as single sided racks to go against a wall or double sided for central access front and back.
- A choice of six arm lengths and weight capacities exist as standard.
- Available as Starter and Extension units, this racking is fully modular, so you can add extra sections as you need them.
- Starter units come complete with 6 arms (single sided) and 12 arms (double sided).
- Extension units including 1000mm cross bracing and one upright with arms, simply bolt onto either end of the starter unit to create a continuous run of racking.
- Arms are height adjustable every 100mm and fix to the uprights with steel bolts. Optional steel end stops are also available to prevent items from rolling forward.
- The whole system is delivered flat packed for easy assembly.
- This product should be bolted to a concrete floor for stability and is safe for manual loading only.
