

# Medium Duty Cantilever Racking

Double sided Starter Bay + Extension Bay

- Perfect for storing lengths of timber, pipe, mouldings or strip metal, this robust cantilever racking system will support up to 1,200kg per level with a maximum total capacity of 1,925kg for each side of the uprights.
- Made from sturdy powder coated steel, Medium Duty Cantilever is offered as single sided racks to go against a wall or double sided for central access front and back.
- A choice of eight arm lengths and weight capacities exist as standard.
- Available as Starter and Extension units, this racking is fully modular, so you can add extra sections as you need them.
- Starter units come complete with 8 arms (single sided) and 16 arms (double sided). Extension units including 1000mm cross bracing and one upright with arms, simply bolt onto either end of the starter unit to create a continuous run of racking.
- Arms are height adjustable every 100mm and fix to the uprights with steel bolts. Optional steel end stops are also available to prevent items from rolling forward.
- The whole system is delivered flat packed for easy assembly.
- This product should be bolted to a concrete floor for stability and is safe for manual loading only.

Type	Bay Type	Description	Duty	Height mm	Width mm	Depth mm	Arm Depth mm	Arm Capacity kg
