- spreading quantity adjustable with fixed stop
- with adjustable spread width limiter
- with strainer insert
- supplied in prefabricated assemblies

USAGE	CAPACITY	SPREADING WIDTH	SPREAD STEPS	WEIGHT	TYPE
Medium spreading areas	20L	1 – 4m	6	10kg	<b>4458w</b>
Medium spreading areas	35L	1 – 4m	6	11kg	<b>4459w</b>

### Advantages of the new Composite range of spreaders!

Maximising composite material means

- reduced corrosion
- Longer lifespan
- Lighter weight
