

## Single Drum Clamp for ‘Egg Shaped’ Drums

- The ideal attachment for safely handling tapered ‘egg-shaped’ Mauser drums or drums where the base diameter is smaller than the drum diameter
- Designed to grip and secure the drum via its base during lifting. An upright support section adds additional stability to the drum.
- Fully automatic operation.
- Secured to the truck by fork pockets and zinc plated screw clamps.

Model Ref	Capacity	No of Drums	Drum Type 210L	Max Fork Size W x D	Fork Spread Overall
4934	400kg	1	Mauser	130 x 70mm	585mm
